Let this business compete with the others. We want and need uber. The other cabs could use the competition. This is capitalism!

Uber is a much more affordable alternative to your typical cab. It has helped so many from drinking and driving by making it more convenient and cost effective to call a ride. Please don't let the politics of this situation ruin what can truly be a life saver to so many.

Respectfully,
William McDaniel

Subject: Uber

To whom it may concern,

I am appalled by your recent decision to shut down Uber in South Carolina. I have used Uber for two years now, including in your state, and have always found Uber to provide superior service to that of traditional cabs. Uber cars are cleaner, and in general, their drivers have been more courteous and friendly. Restricting a free market enterprise such as Uber would be like shutting down Amazon because traditional book and record stores can not compete with them.

As a traveler, I can't begin to express the peace mind Uber provides when I have to be somewhere on time. I have never had to stand on an empty street hoping to flag a cab. I know what my driver looks like, what kind of car he drives and when he will arrive. I can even see his rating based on rider reviews.

I believe your actions to be serving the interest of a minority of business owners while doing a greater disservice to the residents and tourist of South Carolina.

As a regular visitor to your state, I ask you to re-examine your decision without bias. Try Uber yourself and you will have to agree, it is the most efficient and superior way to move about town.

Sincerely,
Bruce Jones

I love UBER and use them around the WORLD! They are fast, reliable and a great value for the cost I can see both them coming to pick me up on my phone and follow the trip as we travel ON MY PHONE! How much safer can that be? Please let them service SC. Leave them be and let them do their thing here in the great state of South Carolina!!
